

Dear USA Swimming members,

As we continue to monitor the changes of this global pandemic, assess the lifting of restrictions across the country and prioritize the health and safety of our members, we are also optimistically planning for our return to competition.

Given the varying timelines expected for a return to training, we have made the decision to modify our upcoming events schedule. National events in July and early August, which include USA Swimming Sectionals, Futures and the Speedo Summer Championships, will be canceled in order to refocus our efforts on introducing a new series of summer events better tailored to the current environment.

**The introduction of 14-16 regional events in mid to late August** would allow for a successful return to pools and training and help kickoff the competition season.

These regionally focused events will limit the need for travel and promote a safer competition environment for our athletes, families and everyone involved. The approval of these event sanctions will be subject to local health guidelines and directives. We look forward to providing further details in the coming weeks.

Following the end-of-summer events, we are pleased to announce our tentative 2020-2021 national schedule of events in preparation for the U.S. Olympic Team Trials in Omaha in 2021:

Someday soon you will all strap on your goggles and walk on the pool deck again, and we absolutely cannot wait.

Wishing you continued good health,
