

Prepared by Jim Thompson, Strategic Planning Vice-Chair

At the start of this season, the PVS Board of Directors established a Technical Committee.<sup>1</sup> The strategic planning function supported this new committee by providing data analyses on two topics:

- Effectiveness of electronic touchpads by age group
- Forecasting entries for the PVS Short Course Junior Olympic Championship Meet

This HOD meeting marks the end of my tenure as Strategic Planning Vice-Chair. I wish to thank the HOD members and my fellow board members for the opportunity to serve the organization.
