

Risk Management/Safety Report 2019

To the Potomac Valley Swimming LSC

House of Delegates

PVS continues to do well compared to most all larger and smaller LSCs on Safety and Risk Management. Our rate of Reports Of Occurrence (ROO) continues to show that we take the steps needed to keep our Swimmers, Coaches, Officials and Volunteers safe.

During this next year the plan is to increase education and qualifications of Athletes, Parents, Coaches and Officials on the topic of Concussions and Traumatic Brain Injuries (TBI) through formal on-line training for Coaches and Officials. Athletes and Parents will be provided with educational materials and links to take (on a voluntary basis) the same formal training as our Coaches and Officials if desired.

The PVS Board hopes that over the course of this year we will all become much more aware of the lifelong impact of Concussions and TBI.

Respectfully Submitted,

Potomac Valley Swimming Risk Management/Safety Chair

Kurt Thiel
