

Problems with USA Swimming Athlete Protection Training

Some officials are having problems with their Athlete Protection Training (APT) not being recorded in the SWIMS registration database.

The results are posting within a few hours of completion of the training. The issue seems to be that folks are exiting the system before the result is sent to SWIMS. People should see this pop up that tells them the result was sent.

If you do not see this box, or your APT has not updated in SWIMS, you can log in again at www.usaswimming.org/apt. If the box pops up upon re-entry, the result will resubmit.

When you login at the site, it will show your status.

ATHLETE PROTECTION TRAINING

Timothy Husson
BGC Expiration Date 1/31/2019 Level II
APT Expiration Date 12/31/2019
